## Journeys Interrupted Clinics

Most of us live lives of journeys interrupted. There are many ways our journeys change: having a child with health issues or special needs, facing health issues of our own, healing from the death of a child, divorce, abuse, or becoming the care giver for aging parents or grandchildren are just a few ways our journeys can change.

Through the healing energy and powerful spirit of the horse, you will be inspired to ignite your self-awareness, encouraged to become self-nurturing, and provided insights into your inner confidence.

Treat yourself to our uplifting, fun, unique equine facilitated experience.

- Share, write, and reflect about your experiences
- Be one of the few people who knows and understands the Language of Horses
- Participate in connecting activities with Zuni (a wild Mustang clinic favorite)
- Venture out on a trail ride (or cart ride) in the prestigious Sonoran desert
- Participate in a guided art experience (no art background needed)
- Enjoy a catered luncheon

## "Just for Fun" Clinics

All our Clinics are fun...but these are Clinics designed for lots of laughs and bonding experiences.
